

Yearly Status Report - 2019-2020

Part A				
Data of the Institution				
1. Name of the Institution	NIMS UNIVERSITY RAJASTHAN, JAIPUR			
Name of the head of the Institution	B.R.Meena			
Designation	Vice Chancellor			
Does the Institution function from own campus	Yes			
Phone no/Alternate Phone no.	01412388964			
Mobile no.	9116010405			
Registered Email	registrar@nimsuniversity.org			
Alternate Email	pvc@nimsuniversity.org			
Address	NH-11 C Jaipur			
City/Town	Jaipur			
State/UT	Rajasthan			
Pincode	303121			

University	Private
Type of Institution	Co-education
Location	Rural
Financial Status	Self financed
Name of the IQAC co-ordinator/Director	Dr Sunil Sharma
Phone no/Alternate Phone no.	01412388965
Mobile no.	9116010405
Registered Email	pvc@nimsuniversity.org
Alternate Email	provc@nimsuniversity.org
2 Wahaita Address	

3. Website Address

Web-link of the AQAR: (Previous Academic Year)	<pre>https://drive.google.com/file/d/1p2C GpHGd7j6gFSlrLQJEbg2c5Um7mLSx/view?usp= sharing</pre>
4. Whether Academic Calendar prepared during the year	Yes
if yes,whether it is uploaded in the institutional website: Weblink :	https://drive.google.com/file/d/18PSgA4 Tg5wRAcOPO1WNPYGu70huiLyJ-/view?usp=sha ring

5. Accrediation Details

Cycle	Grade	CGPA	Year of	Vali	dity
			Accrediation	Period From	Period To
1	B+	2.56	2019	08-Feb-2019	07-Feb-2024

6. Date of Establishment of IQAC

20-Mar-2017

7. Internal Quality Assurance System

Quality initiatives by IQAC during the year for promoting quality culture						
Item /Title of the quality initiative by Date & Duration Number of participants/ beneficiari

8. Provide the list of Special Status conferred by Central/ State Government- UGC/CSIR/DST/DBT/ICMR/TEQIP/World Bank/CPE of UGC etc.						
Institution/Departmen t/Faculty	Scheme	Agency Year of award with Amount duration				
	No Data I	Entered/	Not Appli	cable!!!		
No Files Uploaded !!!						
9. Whether composition of IQAC as per latest Yes						
Upload latest notification	n of formation of IQAC		<u>View</u>	File		
10. Number of IQAC ı year :	meetings held during	g the	3			
The minutes of IQAC meeting and compliances to the decisions have been uploaded on the institutional website			Yes			
Upload the minutes of n	Upload the minutes of meeting and action taken report			<u>View File</u>		
11. Whether IQAC received funding from any of the funding agency to support its activities during the year?			No			
12. Significant contributions made by IQAC during the current year(maximum five bullets)						
• Participation in NIRF • Develop Telemedicine centre • Extension of Medical college and super speciality hospital • Develop clinical database and promotion of epidemiological research • Extension of new era programme in engineering, management and allied medical sciences						
	No Files Uploa	ded !!!				
	13. Plan of action chalked out by the IQAC in the beginning of the academic year towards Quality Enhancement and outcome achieved by the end of the academic year					
Pla	in of Action			Achivements/Outcor	nes	
	No Data E	ntered/N	ot Applic	able!!!		
		<u>View</u>	<u>File</u>			
I4. Whether AQAR was placed before statutory Yes						

Name of Statutory Body	Meeting Date		
Academic Council & Board of Management	24-Dec-2021		
15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?	Yes		
Date of Visit	27-Dec-2018		
16. Whether institutional data submitted to AISHE:	Yes		
Year of Submission	2020		
Date of Submission	15-Aug-2020		
17. Does the Institution have Management Information System ?	Yes		
f yes, give a brief descripiton and a list of modules currently operational (maximum 500 words)	University Management System (UMS) is business intelligence enabled webbased ERP product for effectively managing complete university functions including real time information processing and knowledge management. UMS practically cover the entire area of operations and automation of the various university functions via modular categories, such as Student Lifecycle Management, Administration Process, Financial Management, HRMS and Operations. It is an integrated system that facilitates processing of large volumes of information in its subsystems which includes, but not limited to Engineering, Inventory, Asset, Facility, Transport, Library, Establishment, Payroll and Student fees among various departments in the institutions. UMS also act as the foundation and collaborative platform to foster Research and Education Delivery including ELearning methodologies. https://docs.google.com/ document/d/1jEKZAvwkR9dQZWvRo7yVZruM6ae fCjsN/edit?uspsharingouid10903645612945 0893256rtpoftruesdtrue

1.4 – Feedback System						
1.4.1 – Whether structured feedback	received	from all the	stakeholder	S.		
Students					Yes	
Teachers Yes						
Employers	Employers Yes					
Alumni					Yes	
Parents					Yes	
1.4.2 – How the feedback obtained is (maximum 500 words)	being ar	alyzed and	utilized for c	overall o	development o	f the institution?
Feedback Obtained						

1. Process for Collecting Feedback from Stakeholders To gain a general understanding of the curriculum, teaching learning, LMS, Infrastructure, facilities, laboratory, library, Etc. Feedback collected during the year 2017-18 from the Students, parents, alumni, and teachers for the development of whole institution. The 3600 feedback collected by the institution and analysed along with the action taken report. 2. Analysis of Reactions and Action Taken The IQACs data collection was sorted and aggregated prior to writing the analysis report. The data was then transformed to chart form and encoded for optimal interpretation. The analysis is performed on a year-by-year basis as well as on a parameter-by-parameter basis. All stakeholders concerns are taken into account with great care and attention. The teachers discussed and evaluated the curriculum recommendations received from various sectors. The proposals were gathered for distribution to instructors who serve on various Boards of Studies and Syllabus Revision Committees, as well as those who attended the Universitys Syllabus Revision Workshops. Appropriate suggestions were created and disseminated to ensure that issues were addressed properly. ht tps://docs.google.com/document/d/1XtRUD0JyS-

sometimes not a	ligned with the educ	cational backgr	ound. All stude	ents are a	admitted in the L	selected by them are Iniversity by clearing onsidered as a basic

idea the faculties on rely on to identify the slow and advanced learners. Bridge course is arranged for all students

in the beginning of their Program to ensure that all the students from different backgrounds share the same knowledge pool. On the commencement of classes, the teachers evaluate the learning abilities of the students by direct assessment such as internal assessment, exams, tests, viva, open book test, etc. and indirect assessment such as projects, practical examination, group discussion, presentation etc. Slow learners identified are given special attention to by arranging remedial classes outside class hours. These classes are conducted as and when the faculty feels it is necessary for special attention for the slow learners, such as before exams, or during times when they are having difficulty understanding. Students are also mentored to identify if there is a problem area and solve it. Advanced learners are identified based on direct and indirect assessment by the faculty, and adequate and appropriate support is given to them to support them. Advanced learners are provided with extra study materials and library access hours etc. They are encouraged to work with the faculty on the projects they are working on and assist them. Opportunities to be a part of short research projects are provided and the students are encouraged to take them up. Advanced learners are also encouraged to take seminars and presentations in the class, thus promoting peer learning, which in turn helps the slow learners too. The students also get support of study materials and course materials available on the go, in the mobile app for LMS. Online assignments and MCQs are available on the LMS software, which helps the staff assess the learning abilities of the students efficiently and continuously.

Number of students enrolled in the institution	Number of fulltime teachers	Mentor : Mentee Ratio

• The Technical Support Team (TST) is responsible for the maintenance of computers and other accessories. • The Technical Support Team consists of computer operators, administrators and lab attendants. • The university also gives annual maintenance contract (AMCs) for repairing and supply of computer/ accessories • Purchase of new equipments/accessories is made during expansion/obsolescence/ up gradation mode. The university facilitates through procurement, training, repair and maintenance of its systems. The use of computer-aided teaching/learning materials is in the domain of individual teacher and department and the university supports these financially, whenever required or requisitioned. University avails the web resources through which it makes the classroom interaction more effective. • Since most students are techno-savvy, multi-media approaches are familiar as well as interesting for them. • The Audio-visual mode has always been an effective strategy which is more stimulating than blackboard learning or dictation of notes. • A student is motivated by his/her curiosity and is also able to access the material around a topic independently through e-resources and other resources. • Online interaction is also possible in the classroom. The college allows using laptops and students also use their smart phones to go online. There are established procedures and systems for utilizing and maintaining physical and academic support facilities such as library, sports facilities, computers and classrooms. Full time maintenance personnel are available to provide services such as electrical work, plumbing, furniture upkeep, building maintenance, gardening, maintenance of sports facilities and house-keeping. Technical support and maintenance are provided by Lab Assistants in the Management and Computer Science laboratories. Need based contracts are signed for equipment maintenance and college engineering works such as elevators, air conditioners, UPS and generators. There is also a team of house keeping staff and maintainence team that take care of maintaining all the facilities in the campus regularly. There is also repair personnel like electricians, carpenters etc avaialble in the campus. The University also makes sure there is painting , repair, maintainence work done whenever necessary. There are gardening staff available to take care of maintainence of plants, trees lawns etc. Regular watering and mowing is also taken care of by the same team There are separate staff for maintaining all the available sports facilities. They also take care of alloting the equipments to the students when requested.

•	5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of ne institution (maximum 500 words)							
Nims University Rajasthan, Jaipur Student Council is a strategic platform for students to acquire in-depth leadership experiences. The University Council serves as the chief representative body for students in the university, with representations from all faculties. Council focuses primarily into student integration and the quality of life for campus students. The Students' Council is a student body having 02 students in each department and all the members elected the president of the Council. The Council also has an Executive Committee composed of 10 members. The President, two Vice Presidents, the General Secretary, two Joint Secretaries and four Executive Committee Members are the office bearers of the Students' Council. Student Council conducted various academic and extra- curricular programmes and initiated several student welfares measures. During the celebration of various programmes / events and activities student council monitors and helps in upkeep of discipline, decorum and overseeing execution of all the activities.

	the institution ha	s registered Alur	nni Association?					
Yes								
the college fee when the year. The A internship also collect necessary a non financi Outstanding gathering.	The University has a alumni association that every student who graduates from the college is part of. The fee for registartion is collected as part of the fee when they take admission in the University. There is alumni meet held every year. The Alumni also have access to an app where they can post jobs, internship opportunities for the current students. Feedback from the Alumni is also collected through the app.The feedback given is analysed online and necessary actions are taken after discussions. Alumni have also made non financial donations like books to the library, planted trees etc. Outstanding student in the University is felicitated during the alumni gathering. They are also asked to talk to the students during orientation program conducted during the beginning of the session.							
5.4.2 – No. of re	gistered Alumni:							
			44230					
5.4.3 – Alumni c	ontribution during	the year (in Rup	pees) :					
			340000					
5.4.4 – Meetings	/activities organiz	zed by Alumni As	ssociation :					
5.4.4 - Meetings/activities organized by Alumni Association : As resolved by the Executive Committee of the Alumni Association of Nims University Rajasthan, Jaipur dated August 19, 2019, a meeting were organized for the same. Registrar of Nims University Rajasthan, Jaipur presided over the meet and Prof. (Dr.) Balvir S. Tomer was the Chief Guest and other office bearers of the Nims University were also present. Registration of the Alumni started at 10:00 am at the entrance gate of Rajeshwari Auditorium. 340 Alumni, including the executive of the Alumni organizing committee attended the meet. The function started with the lightening of the lamp. The President of the Alumni Meet and the Convener welcomed the Alumni. In inaugural address, illustrious Chairperson of the Nims University Rajasthan, Jaipur expressed that								

this is the IXth meet of Alumni in the Glorious Rejeshwari Auditorium of the University. He said that, hope you enjoy your visit and look forward to seeing you on campus again soon. He expressed his wishes to progress to achieve good and respectable positions and greeted those who are serving the society with their best efforts. He also wished success of the function. The participants discussed the ways and means to contribute in the development and the progress of the university through their Alumni forum. They emphasized to enrich the University with their experience in professional career with regards to development of the curriculum suitable to the present industrial environment. At the end the Convener of the meet thanked to the office bearers of the University and participants of the meet. The function ended with play of National Anthem followed by Dinner.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

NIMS Universitys decentralisation and participative management practises are well-established. Numerous committees, boards, councils, forums, and cells are created, including the Management Board, the Academic Council, the Board of Studies, and the Research Board. The UGC laws define the roles and obligations of office holders and authorities, as well as the organisational structure of such organisations. Members of various organisational units are picked based on their unique interests, preferences, and demonstrated abilities. Additionally, students are assigned to departmental and university-level units to contribute to and engage in discussions regarding a range of academic and administrative themes and problems. The essential activities are outlined in further detail. The organisational units engage in planned and scheduled work, coordinated meetings, agenda-driven dialogues, documenting resolutions, allocating responsibility and monitoring completed actions, and so forth. Each member is allowed to express their ideas and opinions within the defined parameters. However, the chairman of the organisational unit retains final and binding authority. The next section covers a case study demonstrating NIMS Universitys practise of decentralisation and participatory management. To ensure that the Universitys vision and mission are realised, the curriculum design and development process begins with a needs analysis that considers stated and implied customer needs, the universitys overall goals, and statutory requirements from organisations such as AICTE, UGC MHRD, and others. Dean Academics develops a comprehensive curriculum structure for each programme. Among other aspects, he considers legislative requirements, student workload, students overall growth and competitiveness, active learning techniques, global, regional, and local needs, and evaluation trends. The same is true for staff department leaders. Each university department takes input from all stakeholders, including students, parents, faculty, colleagues, instructors, and course organisers, and welcomes comments and changes. Two committees are constituted at the departmental level. DDC and DAC (Department-Level Academic Councils) (Department Level Development Council). Following DAC and DDC debates, new requirements are established and a summary of curricular enhancement adjustments is created. The DAC submits these suggestions and infrastructure needs to the Board of Studies (BOS) for assessment and final approval. The Supervisory Board deliberates on the subject and sends it to the Dean Academics for further action. The Dean Academics reviews the application and verifies that it complies with University standards regarding teaching hours, programme credits, and so forth. If a dispute arises with the Universitys requirement for more modifications, the Dean Academics reverts the matter to the department with suitable suggestions. The BOS deliberates on the proposals once again and makes necessary adjustments. The BOS recommendations

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
	In Nims University, we have implemented the curriculum designed by the governing councils, i.e., National Medical Commission/Medical Council of India, Dental Council of India, Indian Nursing Council, Pharmacy Council of India, Bar Council of India, Council of Architecture, Rajasthan Paramedical Council, etc. Through the Periodic Board of Studies modifications which are suggested by subject expert are done. After getting inputs of different stakeholders' curriculum revamped with the approval of Academic Council.
Teaching and Learning	Teaching and Learning process has been established in a way that impart the modern process. Student are guided in an open-ended manner for the best outcomes. ICT enabled classrooms make teaching very interactive. Group discussions and Seminars with the eminent speakers make the study more viable and useful. faculty are encouraged to participate as well organize seminars for the benefit of students and faculty.
	Continuous internal assessment system is conducted through quiz, class tests, and assignments. We have also introduced online MCQ as a part of internal assessment. All the faculties have uploaded question bank of multiple choice questions in the Institution LMS. Online question papers are created by randomly selecting predefined number of questions from the question bank. Students can take the online MCQ. Student centric evaluation is carried out in the Examination department under strict vigilance. The Credit based scoring system is already in place for evaluation of students in their areas of interest.
Research and Development	Research Incubation and research culture is encouraged in the University. University motivates

	<pre>student with research fellowships faculty members are encouraged for research and provided seed money for their work. We host scientific seminars, CMEs, workshops. Various MoU's with Universities and research centres and industries has been established for the idea sharing. More than 500 research students/assistants are working on different research areas. A dedicated committee for research is working for all research promotion activities.</pre>
Library, ICT and Physical Infrastructure / Instrumentation	The university offers excellent library services to a wide spectrum of users, including students, scholars, faculty members and visiting scholars. The University library system comprises of more than 38 libraries attached to different departments/ Colleges/ institutions in addition to central library facility. The resources of library include 29,123 titles, 71,128 books, 1093 back volumes, 2276 hard copy of journals, 16,120 full text online journals, 52 micro documents in Digital Library, Micro film facility, skill laboratory. Full air-conditioned, with J Gate E Journal Portals internet is visited by its users and has a capacity of accommodating more than 1200 students and faculty at one point of time. Library have been equipped with audio-visual aids for facilitating teaching learning process.
Human Resource Management	Human Resource Department of the university looks after the Staff welfare from the recruitment to enhancing their skills in furtherance with the success of the University. The faculty are rewarded and recognized for their efforts and all the outstanding contributions are acknowledged. There are fully functional grievance redressal mechanism and wellness centre within the campus so as to look after the healthy environment for the workforce of the University.
Industry Interaction / Collaboration	Academia-Industry interaction helps th university for the better sharing of our academic and research knowledge. Industrial visits by our students and faculty and collaborations stimulates the better understanding of industry and market needs. Industry These interactions have enhanced the acumen of our alumni and have brought laurels

		to the University.
	Admission of Students	In the council governed programmes, admissions done on the basis of their respective guidelines. Other than council Merit/ entrance-based admission are being done.
H	L	l tionos

6.2.2 – Implementation of e-governance in areas of operations:

E-governace area	Details
	ERP Module of the Nims University covers the planing of academic and administrative activity related to admission, feedback of Stakeholders, Complaint System Management and recruitment etc. The recommendations of the Planning Monitoring Board are placed before the Board of Management for consideration and approval. Proposals relating to academic matters are processed through the Academic Council. Periodic Board of Studies, Committee for advanced study and research, Academic Council Meetings are held. Online feedback from the students and employee are taken and assessed.
Administration	Administrative ERP module maintains the record of all employs (Teaching and Nonteaching staff) and students database of the Nims University. The admission, human resource management, Accounts functions, student feedback and grievance redressal are executed through online system. Biometric attendance provision is there for teaching, non-teaching staff and students too. The University campus is equipped with CCTV Cameras at every place of need with adequate security arrangement to ensure security of students, faculty and staff etc.
	Finance module of ERP system held to maintain the record of salary, fee collection for academic activities, exam, hostel etc of the Nims University. Student Fees' submodule can generate receipts, challans and reports. Student can deposit their fee online. All the faculty can view their salaries online and any discrepancies are immediately resolved. The administrative office keeps all financial records separately as per the events and transactions made and regular audits conducted by internal and external Agency.

6.4 – Financial Management and Resource Mobilization

6.4.1 – Institution conducts internal and external financial audits regularly (with in 100 words each)

Internal Audit: - The University have its own department of internal audit. The Internal Audit department is responsible for all the area to be audited within the University. Complete flow of audit is prevailing within the University. Each transaction whether financial or not is executed maintaining the audit trail and proper documentation for the same. The Internal audit department checks the complete trail of the transactions and report to HOD's of the concerned department and then a monthly report is submitted to the board of management. Concurrent Audit: - Concurrent audit is also conducted in the University, where external qualified audit experts have been hired to conduct the same. The concurrent audit is conducted on regular basis keeping eye on each transaction. External Audit: - External audits are conducted as per the regulations of Income tax act 1961. The Audit report along with returns is submitted to tax authorities.

6.4.2 - Funds / Grants received from management, non-government bodies, individuals, philanthropies during the year(not covered in Criterion III)

6.5 – Internal Quality Assurance System

6.5.1 – Whether Academic and Administrative Audit (AAA) has been done?

	Audit Type	External		Internal			
		Yes/No	Agency	Yes/No	Authority		
	Academic	Yes	Constituted by the President, Nims University Rajasthan	Yes	Framed by Head of the Department Concerned		
A	dministrative	Yes	Constituted by the President, Nims University Rajasthan	Yes	Framed by Head of the Department Concerned		

6.5.2 – What efforts are made by the University to promote autonomy in the affiliated/constituent colleges? (if applicable)

Institutes has the autonomy to make their own Academic Calendar in consultation with Principal Concerned and Dean Academics Affairs for the activities (i.e., Teaching learning activities, sports cultural activities, library, group projects health days celebration etc.) that are planned to be executed in the academic session. Department has been given flexibility to propose an update in curriculum as per the feedback of stakeholders. The Institution/department have full autonomy to organise Workshops, FDPs, Expert talks, Industrial visits

whenever needed. The principals of the institute have complete autonomy to send any faculty member for attending seminars/workshop/ conferences etc on their discretion. Principals can plan industrial visits at their own for the benefit of the students.

6.5.3 – Activities and support from the Parent – Teacher Association (at least three)

 Parent Teacher Interaction regarding Rules, guidelines and policy of the university.
 Parents along with teachers are the important part of diffent cells/committees of the university. Suggesions of the committes play an important role in reform of our process.
 Feedback collected analysed and utilized for further academic and administrative development.
 Student's performance is discussed and new revamping methods are developed for improvement of student learning skills.
 Mentor interact with parents and make them aware with all the progress of students.

6.5.4 – Development programmes for support staff (at least three)

• Online training: Windows, Internet and MS Office • Training for Intercultural Awareness • Time management and Management development programmes.

6.5.5 – Post Accreditation initiative(s) (mention at least three)

Architecture for Excellence Education The management firmly believes that the good infrastructure is essential for holistic development of the students. The infrastructure and learning resources witnessed a substantial increase in the post accreditation phase. The additional infrastructural facilities such as examination section, parking facility, new lawn tennis court, basket ball court, and Departmental Store, Shopping Mall, new stationary store have enhanced the quality of campus life of the students. Establishment of Robotics and Artificial intelligence laboratories, Renovation of computer Laboratories, language laboratory and up gradation of all the existing laboratories with high end systems was undertaken in the post accreditation period. Library infrastructure is improved further and additional e-resources are available to students and faculty members. The procurement of licensed software and customized ERP solutions has further enhanced the teaching-learning atmosphere. Tutor-ward system should be institutionalized Mentoring system provides the students with much needed individual attention, continuous guidance and support to face academic and personal challenges to emerge as successful graduates. Under this system, along with mentor mentee segment, one faculty member is assigned to a group of 10to 20 students. The group meets its mentor twice or thrice a month to discuss various common issues and also to have personal interaction. The mentor also encourages an individual student to approach her / him if needed. It was found that mentor and students develop a good rapport which has encouraged students to seek help for personal or emotional problems also. Career Guidance has been strengthened by forming a centralized facility with members from each faculty. It organizes career guidance and employability skill development programmes for all students. Each department identifies niche areas for training, organizations for placement and establishes linkages with them. Quality enhancement initiatives in the academic and administrative domains Faculty training is conducted at our institute to help faculty to accumulate knowledge and disseminate the same to students. These programs are conducted by well reputed institute at our remote centre and by Industry at our campus. For some training faculty go to Industry and spend some time on machinery available there and learn new skills. Faculty training has increased by nearly 45 because students have to be trained on new employability skills. Most of our faculty are involved in research. And almost 250 papers are published every year in international journal and conferences. The institute encourages faculty to go for higher education. Industry electives like Mobile application Development and Cloud computing, big data and Business Intelligence

7.2 – Best Practices								
7.2.1 – Describe at least two	institutional best practices							

• Title of the practice : Adaption of inter-disciplinary approach between medical sciences and allied health sciences for enhancement of clinical and research skills. • Objectives: Integrate multidisciplinary approach between medical sciences and allied health sciences for enhancement of clinical and research skills among allied health professionals and Increasing employability, entrepreneurship. • The Context: Low number of allied health professionals like paramedical, nurses and midwives remains one of the biggest challenges that health industry is facing in India. Due to lack of appropriate training resources, even the newly qualified workforce of allied health professionals lack high level of professional skills and therefore, remains unable to perform at the optimum level. This coupled with the apparent discrepancy in different states and urban-rural areas, means that a large number of population, mostly rural dwellers or the poor urban is liable to receive care from unqualified or under-qualified providers. After recognising the situation, our University streamlined its resources towards developing state-of-the-art

interdisciplinary, integrated and innovative approaches to health care education which is directed towards enhancing employability, knowledge and skills of the trained health workers. • The Practice: Our University offers allied health programmes in number of disciplines including paramedical, nursing, physiotherapy and pharmacy. The constituent colleges have good facilities, highly qualified teachers and excellent research environment to perform cutting edge research and innovations. These facilities and resources remain essential for performing advanced research and mastering the professional skills of their disciplines, it is difficult to imagine that the professionals can acquire their maximum potential without receiving hardcore

clinical training. In order to overcome this, we have adopted inter disciplinary and innovative methods of training which pay attention to the clinical training of all allied health professionals. Nims University has got an associated medical college with one of the largest number of beds in our state. It has got all clinical training facilities including bedside teaching, OPDs, theatres, etc. All allied health professionals are given relevant

clinical training facilities as a part of their curricula. These interdisciplinary methods of training have improved the quality of graduates dramatically. As demonstrated by the increasing number of placements for the allied healthcare graduates passed out from Nims University, this approach has been successful in augmenting the skill-set and hence employability of these trainees. Furthermore, aligning ourselves to our vision of achieving global entrepreneurship Nims University aims to impart the required skills to all trainees. Conducting research remains one of the most important attributes in our trainees and therefore they are provided with relevant training in research methodology and tools of biostatics. Nims institute of management and computer sciences plays a vital role in imparting entrepreneurship and management skills in our trainees. • Evidence of Success Physiotherapists, Paramedical and nursing students getting good jobs or becoming entrepreneurs Establishment of state-of-the-art centres like National Referral Centre for Fluoride Poisoning

in India (NRCFPI). • Problems encountered Lot of investment to set for infrastructure and facilities. Coordination between different department BEST PRACTICE 1. Title of the Practice: University Staff welfare 2. Objectives of the Practice • To improve quality of teaching and research of the Institution without hindrance of timing • To develop 24X7 hrs working culture in research • Mentoring students round the clock • To produce sustainability for economic growth of employee and Institution • 24X7 hrs ground teaching and curricular activities. 3. The Context The Nims University Rajasthan, Jaipur situated in Aravali hills on Jaipur-Delhi Highway. It is 40 km away from the Jaipur City

and around one hour required to reach university from the Jaipur city. Therefore, maximum numbers of faculty wish to save time and money. They wish to devote the time for research. While the academic achievements of the faculty are taken care of through various general as well as some specific programmes, it is felt very important to address to the welfare of the Staff so that they feel secured in their job and devote to the academic assignments without much worry about the general social conditions, increasing tensions of the globalised world, etc. Being alive to these requirements, the University has established staff quarters, research facilities, health safety, library, sports, Security, CBSC school for child education, cafeteria and provide the facilities for transport also. 4. The Practice a. Total No. of faculties doing PhD in Nims University -69 b. 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The research culture fosters an environment conducive to universally anticipated, debated, produced, and valued research. The Nims university is committed to turning scientific information into workable, dependable procedures, eschewing individual genius in favour of social, corroborative, and societal utility. Hobbies evolve and become canonised within a community via vigilant practise. The university acts as a conduit for higher education, a springboard for social enlightenment, a self-discipline workout facility, and a virtual cradle for all research. The University embodies Indias medical services maturing. Whether its a common daily ailment or a situation that demands particular attention, youll find it all here. A team of highly skilled physicians with decades of experience, highly trained nursing and ancillary staff, state-of-the-art equipment and machines managed by skilled technical staff, and a strong support services infrastructure have all contributed to the Universitys elevation to a premier health care institute in rural Jaipur, Rajasthan. The University encourages professor and student research and development. Certain initiatives are chosen, and the institution finances them in order to foster their enthusiasm for research. The institutes instil a sense of pride in its students by sponsoring their publishing in periodicals. This university was founded to address the greatest need of the hour, which is to educate and empower young to contribute to nation-building, particularly in rural and suburban areas. To educate youngsters and to generate graduates who exhibit positive characteristics toward society. Collaborations with renowned institutes in the fields of pharmacy, nursing, technology, engineering, and management, as well as with other universities, have increased our researchers appetite for acquiring more deserving projects that can be used to improve healthcare services to vulnerable patients.
